HOST PHOTOGRAPHER FOR THE WEEKEND

DARREN ROBINSON - DARREN ROBINSON PHOTOGRAPHY

Darren has been captivated by the art of photography since his youth. Similarly, his passion for nature and the outdoors has further inspired his unique style. Darren can often be seen searching for the closest waterfall to shoot...or jump off of.

Darren started Focus On The Rockies, a photography workshop that brought world-class photographers, such as Daryl Benson, John Marriott and Darwin Wiggett, together to instruct novice and intermediate participants on improving their photography skills. Darren's images have been featured in many tourism-based marketing pieces, ad campaigns and websites.

HOST LODGE - PURCELL MOUNTAIN LODGE

Purcell Mountain Lodge continues offers the finest remote mountain vacations to guests from around the world. Whether you're a hiker, a skier, or a nature lover, there is no finer place to explore the wilderness or to rest your soul.

Accommodations: The lodge has 10 Private Bedrooms that overlook our 360-degree views of the Canadian Rockies, with nothing but wilderness as far as the eye can see. Despite our remote location, however, the Lodge is anything but rustic: a nearby mountain stream provides ample electricity and crystal-clear drinking water, central heating sends warm air throughout the building, and hot showers are always available to soothe away your aches and pains. There's even a traditional wood-fired cedar sauna for those who wish to relax after a day in the mountains!

Food: Our goal is to provide our guests with the most delicious food possible, while at the same time being as light as possible on the planet. Organic food is a simple way to do just that. Organics taste better, they're fresher, and they're free from the potentially harmful chemicals often found in non-organic food. They're also easier on the planet!
